

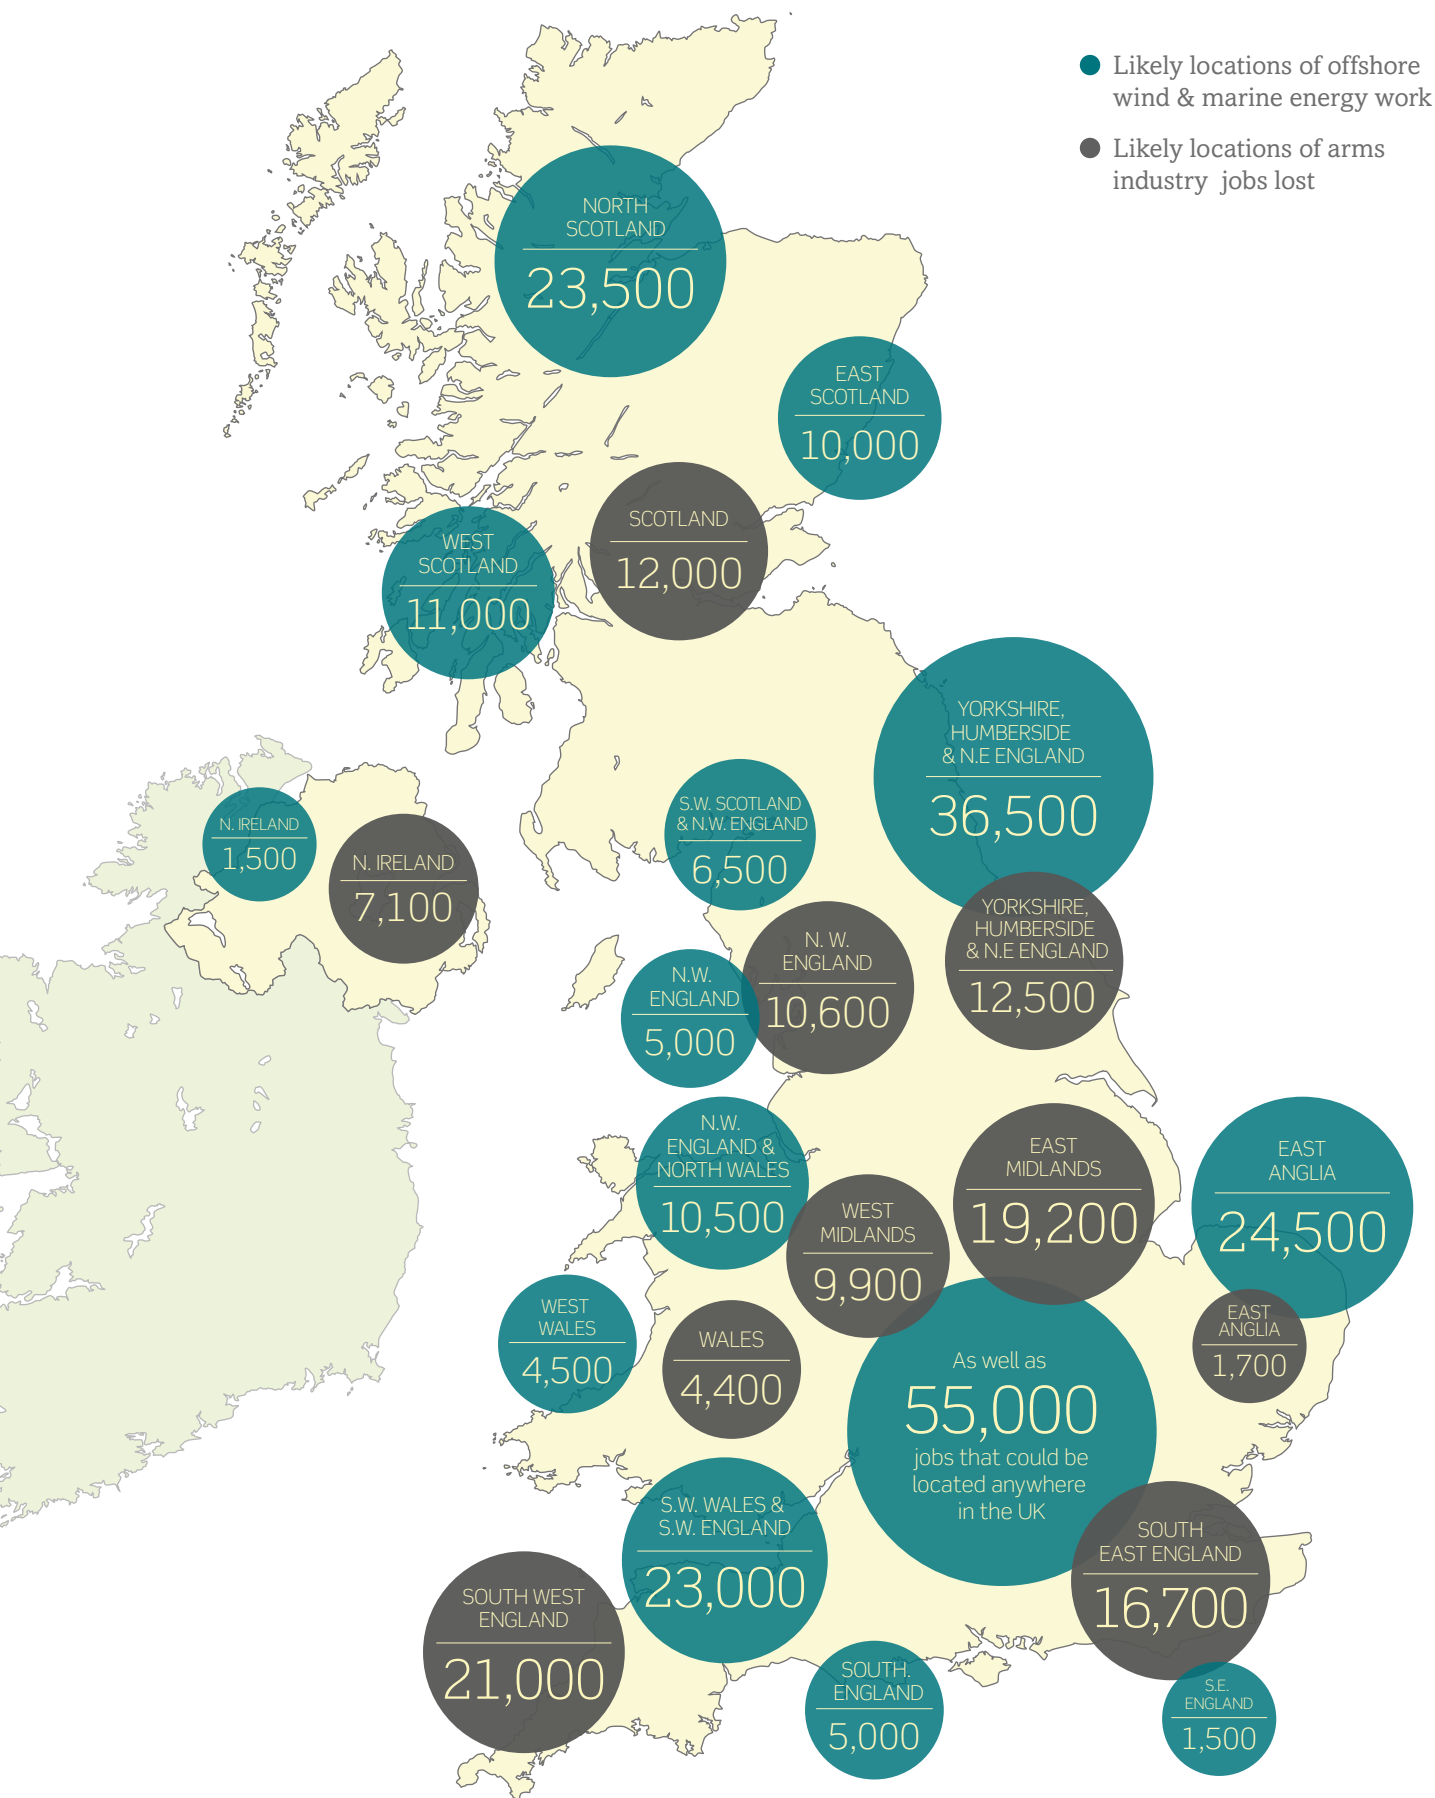

Chart 4.1 » Distribution of arms industry jobs lost if exports stopped and MoD procurement halved, alongside likely locations of offshore wind and marine energy work¹⁶⁵

¹⁶⁵ The distribution of offshore wind energy sites is drawn from the RenewableUK map of Offshore Wind Projects (May 2013, bit.ly/1q67TOj) for fixed wind, and, for floating wind, estimated using information from the Offshore Valuation Group (The Offshore Valuation, May 2010, bit.ly/1vBb8FZ). The distribution for wave and tidal energy sites is estimated using Crown Estate's UK Wave and Tidal: Key Resource Areas Project (October 2012, pp.8&9, bit.ly/1BJ0bBG)
