

IHL Gist Table 1

The following gists are provided following the CLOSED disclosure process and pursuant to paragraph 3 of the order of Mitting J.

The first four gists relate to information contained in the IHL Updates that are referred to in the first witness statement of Mr Crompton in section V. The latter gist is the result of a senior level engagement with KSA.

Date	Page, Paragraph & Heading	Document Title	Gist
27/10/15	Please see page 19, paragraph 60 – 62. The October 2015 IHL Update	Yemen: Monthly IHL Update	Around a quarter of incidents of alleged IHL violations which the MOD was considering in October 2015 were incidents for which the Coalition was responsible. At that stage almost half of all incidents were still being investigated.
May 2016	Please see page 22, paragraph 71 – 72. The May IHL Update	Yemen – Saudi led Coalition compliance with IHL	Up until 6 May, MOD is tracking 188 incidents of potential concern; of which around a third are assessed as probable Coalition strikes. Of these probable Coalition strikes, the MOD has not identified a legitimate military target for the majority of them.
28/06/2016	Please see page 23, paragraph 73 – 75. The June IHL Update	Yemen – Saudi led Coalition compliance with IHL	Up until 28 June, MOD is tracking 194 incidents of potential concern; of which around a third are assessed as probable Coalition strikes. Of these probable Coalition strikes, the MOD has not identified a legitimate military target for the majority of them.
25/07/2016	Please see page 23, paragraph 76 – 78A. The July IHL Update	Yemen – Saudi led Coalition compliance with IHL	Up until 20 July, MOD is tracking 204 incidents of potential concern; of which around a third are assessed as probable Coalition strikes. Of these probable Coalition strikes, the MOD has been unable to identify a legitimate military target for the majority of strikes.
28/04/2016		Visit Note	By April 2016 processes relating to

			management of the no strike list had developed positively. The proportion of dynamic targeting had increased significantly over the last two months.
